

Site Name: Pure Life

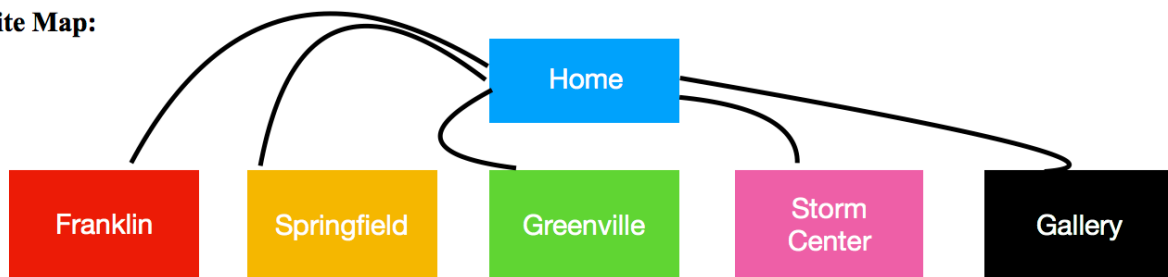

Author: Eholo Castro Salcedo

Motto: “Yielding to beat the climate.”

Site Purpose: This weather site is for the educational purpose of becoming a web fronted developer, learning proper research procedures, sketching out a good plan and layout, as well as the best implementation of HTML/CCS code.

Target Audience: Any kind of students/workers that live in the area that need to know how dress for school/job that day or/and that just simply want to know the weather of these areas. Tourist planning vacations will need to know the weather of the area they are going to, so they will know what kind of cloths to wear and pack for the trip, or possibly what activities they can do.

Site Map:

Typography:
